WATER SERVICES

Pressure	0.5 Bar - 8.5 Bar
Stopcock	15mm from rising main

 **NECTA**

features:

The Kikko Max looks fantastic with modern contemporary styling and offers the ideal hot drinks solution to offices or sites with limited space available.

The simple to use direct selection panel offers up to 14 different selections which can be personalised by the use of pre-selections for drink strength and sugar. There are two models in the range, Instant & Espresso Bean to Cup.

The Kikko Max offers advanced 16-bit electronics, multiple communication protocols and the most up to date software for ease of operation. This ensures that the Kikko Max will satisfy both the end user and operator.

The Kikko Max can also be linked to the Snakky Max in a master / slave combination which allows both machines to share a coin mechanism or payment system to reduce cost and operation time.

Instant or Espresso Bean to Cup models available.

Wide range of hot drinks available as the Kikko Max offers up to 6 ingredient canisters.

Impressive 580 cup capacity.

Strength and extra sugar options available as standard.

Simple to use direct selection buttons.

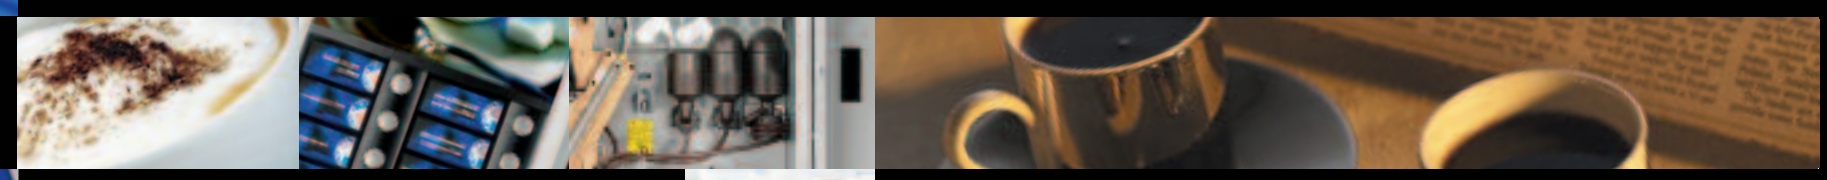

Free vend and jug fill available via management key.

Either paper or plastic cups can be dispensed - or use your own cup.

Designed to be banked next to the Snakky Max or Sfera to offer a full refreshment service.

Cup sensor fitted as standard.

Total vend counter included as standard.

A cup sensor in the delivery area ensures that drinks are not dispensed until a cup is in place. Also included is a jug facility (up to 14cm high), via a management key, which is ideal for meetings and guests beverages.

Designed to complement the Snakky Max in order to provide a full refreshment service - at an affordable price.

Innovative ideas such as the modular (10.5 litre) ingredient canisters allow the correct ratio of ingredients to meet demand as they are split into 7 litre and 3.5 litre sections. The section with the greatest capacity can be either on the right or left hand side, allowing a higher volume of popular ingredients to be used.

Instant	Espresso
Instant Coffee	Bean To Cup Coffee
Decaffeinated Instant Coffee	Decaffeinated Instant Coffee
Espresso	Espresso
Decaffeinated Espresso	Decaffeinated Espresso
Cappuccino	Cappuccino
Decaffeinated Cappuccino	Decaffeinated Cappuccino
Espressochoch	Espressochoch
Decaffeinated Espressochoch	Decaffeinated Espressochoch
Chocomilk	Chocomilk
Instant Tea	Instant Tea / Soup
Chocolate	Chocolate

- Strength plus/minus pre-selection as standard.
- Sugar and Extra Sugar pre-selection as standard.
- On Instant models, Decaffeinated coffee can be replaced with soup or another powder, eg. diet chocolate or lemon tea.

To maintain the highest drink quality N&W recommend the installation of a scale reduction filter to drinks machines fitted with an espresso (coffee bean) brewer.
